- During May 13th, 2020 to February 7th, 2021, we produced 263 "BEAM-Portal videos" based on the essays that were posted on BEAM-Portal (https://beam.figu.org/).
- And "BEAM-Portal videos" is a bold attempt by Saalome Team to present the content of BEAM-Portal in a video format, duration of which is controlled within 140s.

- However, it was not until February 8th, 2021 that we realized during the previous production process we used an "irregular" Peace Symbol (as Image-I), whereas the standard mode of displaying it should be with a "Black Square Frame" (as Image-II).
- Although we corrected our production template as soon as we realized this, however, 263
 BEAM-Portal videos have been completed and posted on our social platforms before then.
- And some of them have even been posted on FIGU official platform upon our upload request.
- This is a terrible work accident for us, and we should apologize to everyone for this.

Our Solutions:

- All 263 "problematic videos" will be removed from our social platforms.
- Their local files will be carried out correction update in batches.
- And the corrected ones will be re-posted on our social platforms in stages.
- For those "problematic videos" that have been posted on FIGU official platform (and other platforms), we will submit this PDF and "appropriate request" to the FIGU companions who helped us post the videos upon our upload request before.
- Also, a Public Apology (as shown on the next page) will be made, and we will take full responsibility for this work accident.

Dear FIGU companions and all those who are following this field,

During May 13th, 2020 to February 7th, 2021, we used an "irregular" Peace Symbol in the production process of BEAM-Portal videos.

Which, unfortunately, led to the previously produced BEAM-Portal videos conveying a wrong message to the public, while the right one should be all symbols (of the Spiritual Teaching) must be integrated into a square frame, which must always be an integral part of the symbols (as shown on the left).

A total of 263 BEAM-Portal videos were involved, including 250 in German, 2 in English, and 11 in Chinese.

More than that, as of February 8th, 2021, these 263 videos have been posted on our social platforms, and some of them were even posted on FIGU official platform upon our upload request.

This is a serious work accident for us, and we should apologize to everyone for what happened.

In particular, our deepest apologies to those FIGU companions who kindly responded to our upload requests and helped us disseminate BEAM-Portal videos on their social platforms.

As you read this "public apology", we have already completed a series of remedial measures in response to this work accident, and all "problematic videos" involving "irregular" display of Peace Symbol have been removed from our social platforms.

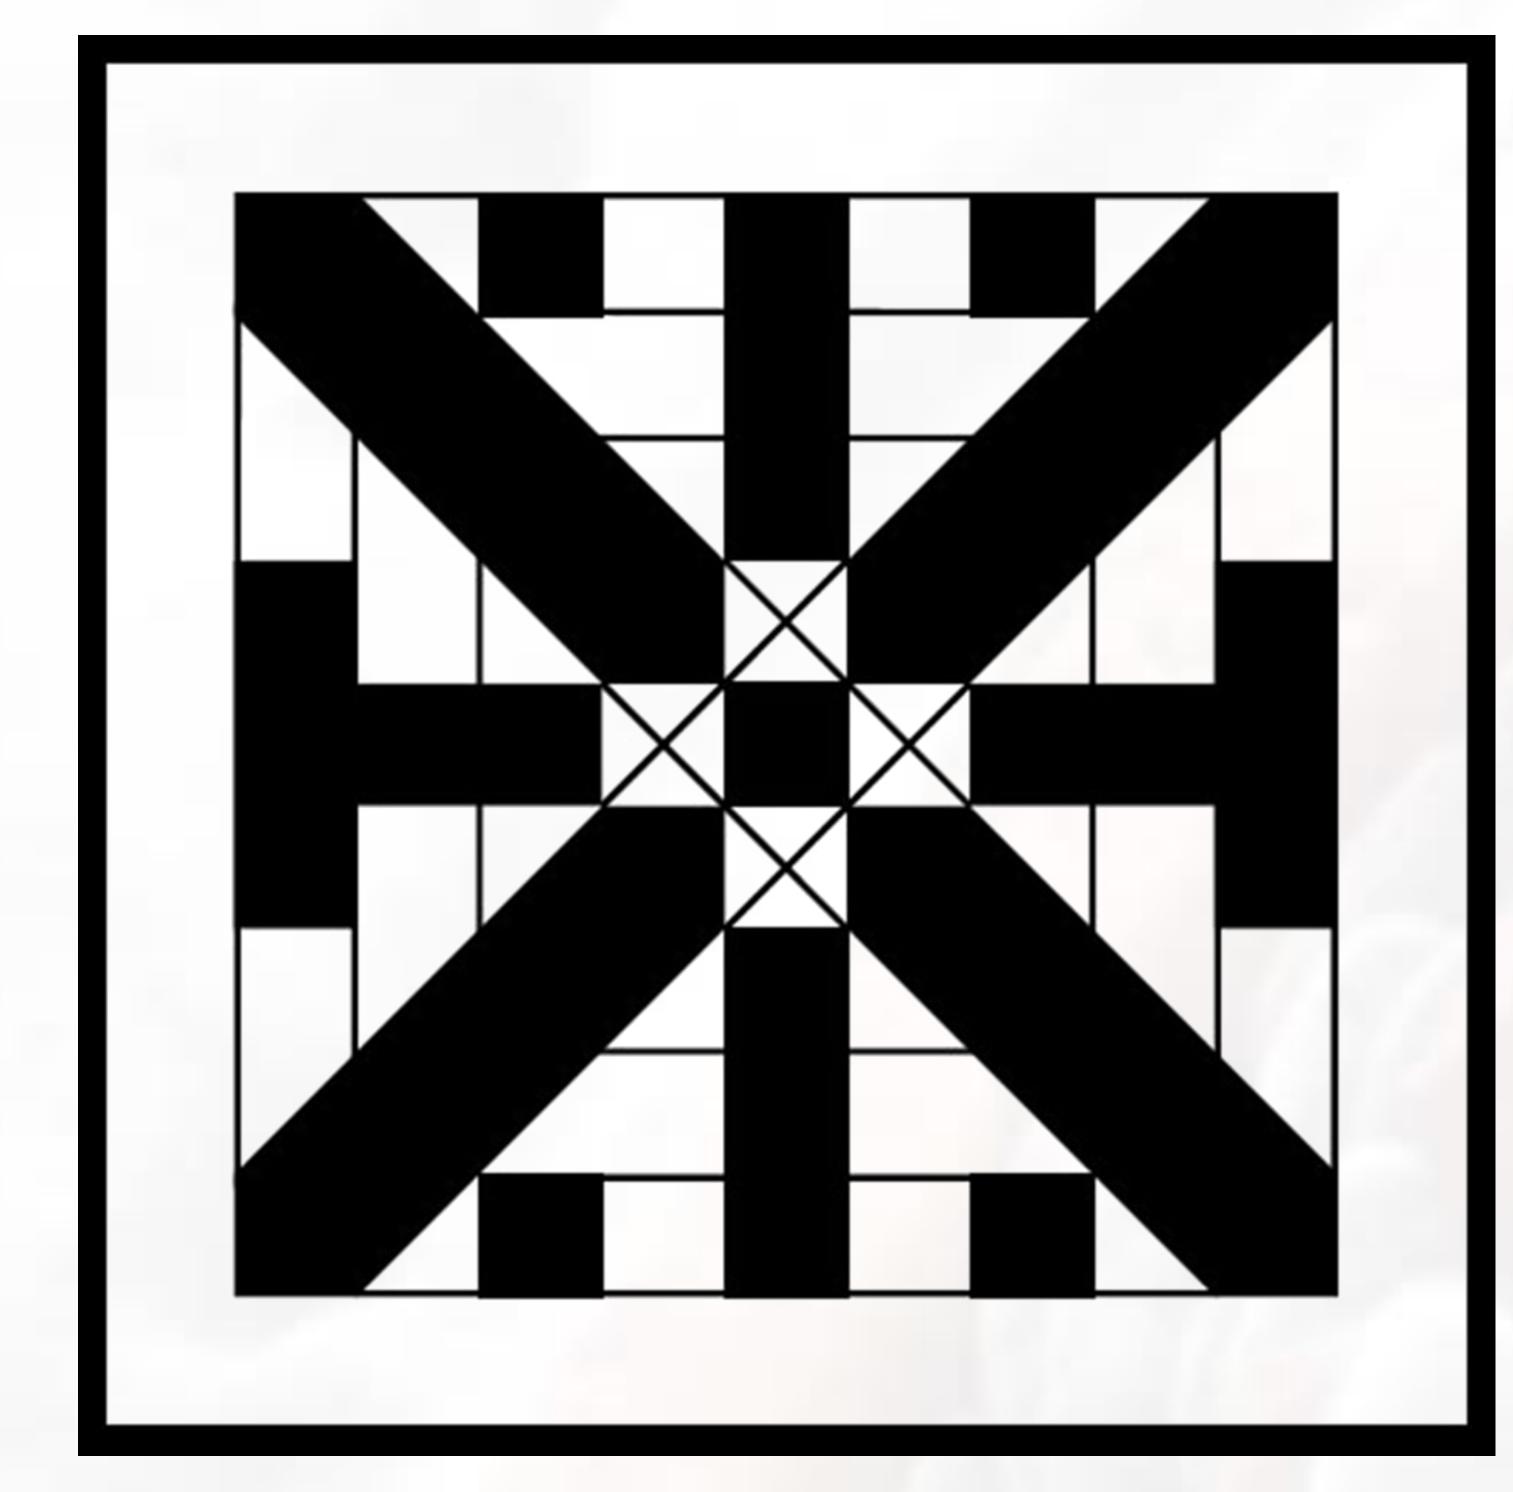

And the corrected ones will be re-posted in the following months.

Once again, we are sorry for this work accident, and the inconvenience caused to everyone.

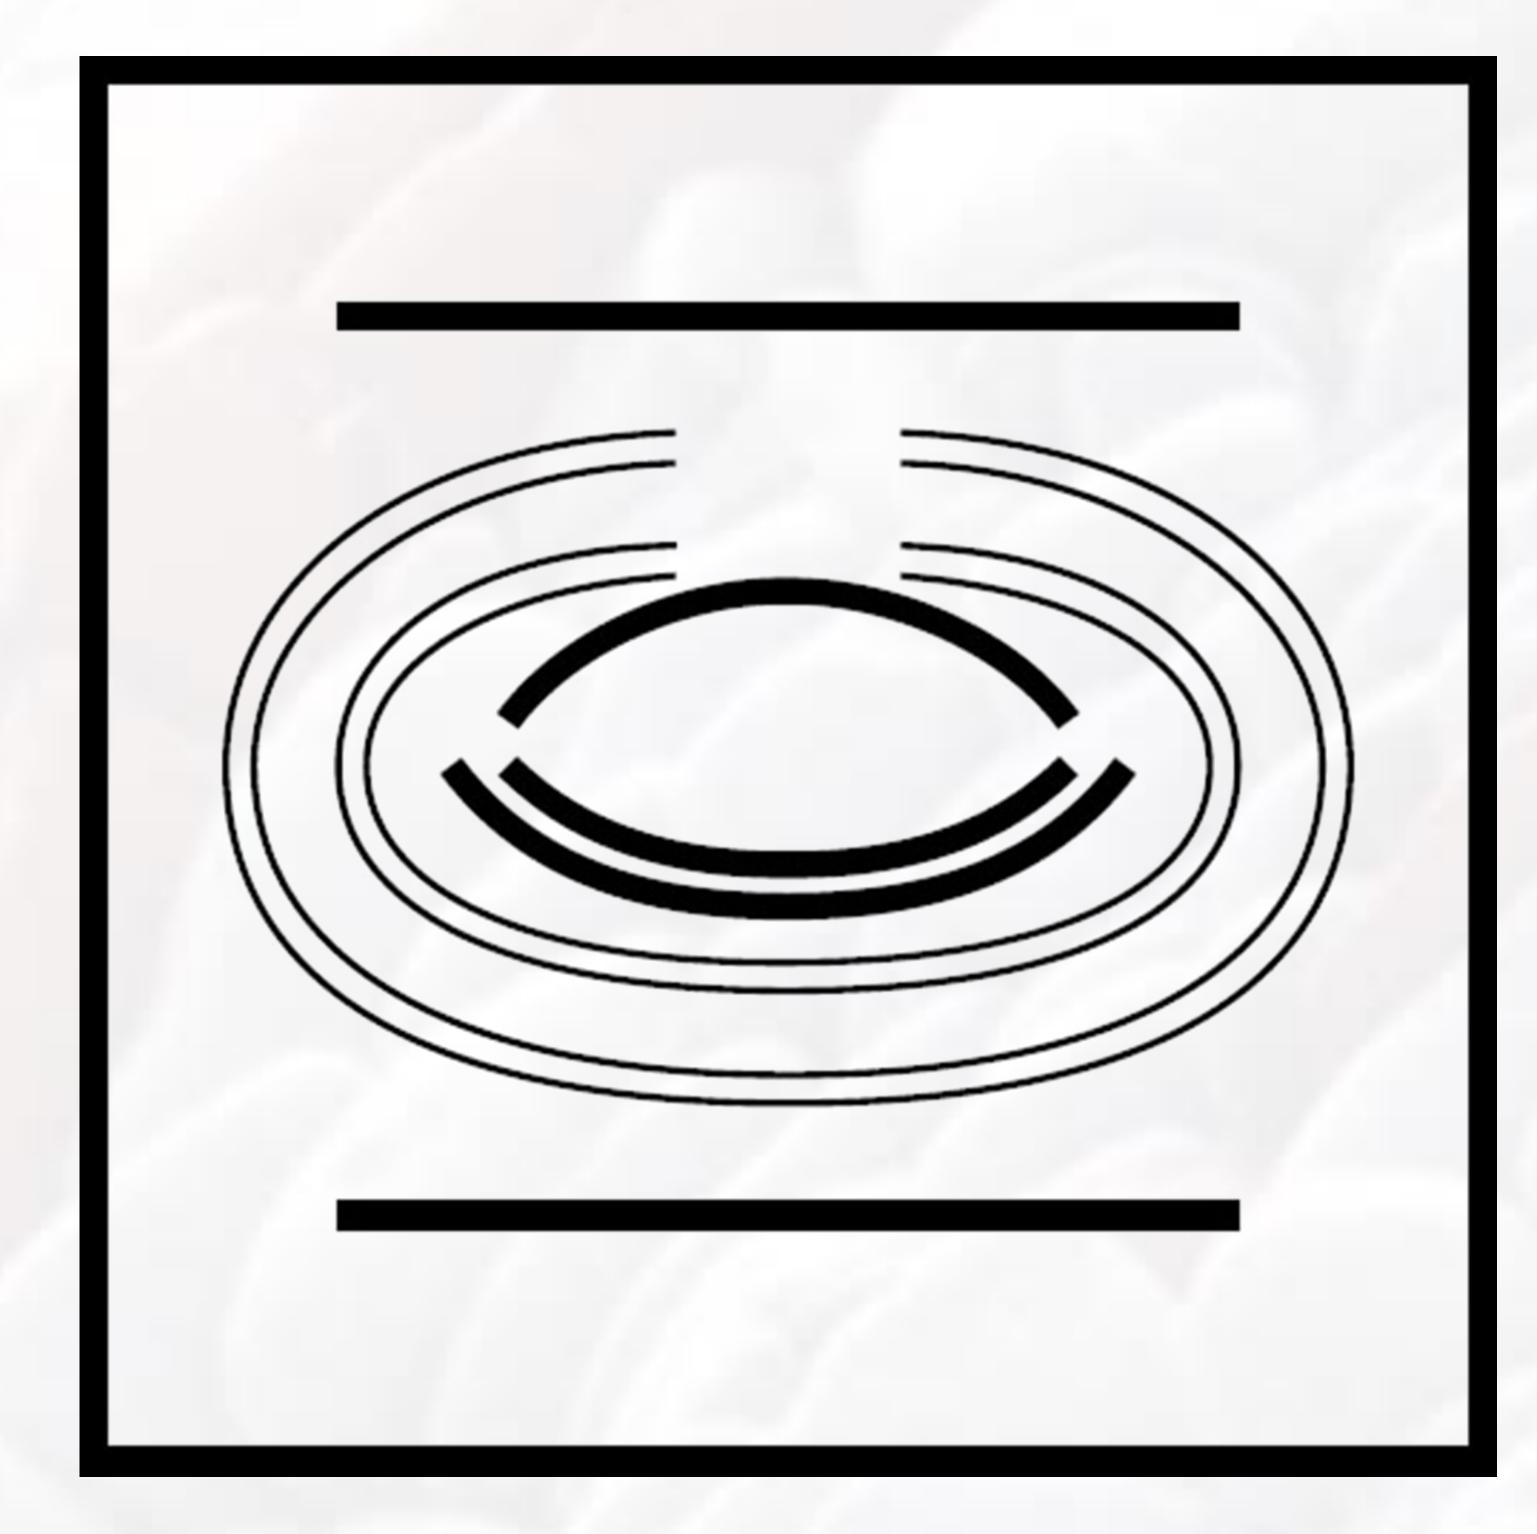

Saalome.
